

SEPTEMBER 1ST-5TH

Week-1 flood

The Marietta Fire Department would like to advise everyone to stay away from moving water in flood conditions. A flood can happen during anytime of the year and in any area like low-lying areas. Moving water can present a problem even in places we think are safe; such as a parking lot that has swift moving water across it.

Flood Safety

**When Flooded,
Turn Around
Don't Drown.
Flooded roads are
definite "No Go"
situation.**

**6 inches of moving
water will move
you. 1 foot of
moving water will
lift and move your
car.**

**Create a flood
safety plan for
your family.**
